"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee substitute was recently produced by Dr. Shoop, of Racine, Wis. Not a grain of real coffee in it either. Dr. Shoop's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for coffee. No. 20 or 30 minutes of tedious boiling. "Made in a minute" says the doctors. Sold by Morris & Yates.

Tired nerves, with that no ambition feeling that is commonly felt in the spring or early summer, can be easily and quickly altered by taking what is known to druggists everywhere as Dr. Shoop's Restorative. One will absolutely note a changed feeling within 48 hours after beginning to take the Restorative. The bowels get sluggish in the winter-time, the circulation often slows up, the kidneys are enactive, and even the heart in many cases grow decidedly weaker. Dr. Shoop's Restorative is recognized everywhere as a genuine tonic to these vital organs. It builds up and strengthens the worn-out weakened nerves; it sharpens the failing appetite, and universally aids digestion. It always quickly brings renewed strength, life, vigor, and ambition. Try it and be convinced. Sold by Jas. H. Orme.

A New Preparation.

Chamberlain's Liniment is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder, and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp, and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by J. H. Orme.

In Memory of Bonnie Moore.

It was just as the evening shadows were gathering and all nature seemed to rest; that the death angel served the slender thread of life and gently bore the spirit of our beloved pupil and school-mate, Bonnie Moore home, "where we will meet no more." She was born October 28, 1893 and died March 31, 1903.

It was sad to know that one so full of hope and with such a bright future, seemingly before them, should be plucked, like the tender rose bud, to wither and decay. But we have the sweet assurance that, "all things work together for good to them that love God."

Bonnie was faithful and obedient at school, ever performing the task assigned her, willingly and cheerfully. As we see the vacant seat, as we miss the familiar face, and as the pleasant voice we have heard so often, is heard no more, we are filled with a sense of sadness—for our own loss; but how much greater it must be for the proud parents and loving little sister!

She is gone, but her kindness to her associates, has left an impression; which time cannot wear away. Like one who was weary, she closed her eyes on this world, and peacefully

Heart to Heart Talks.

By EDWIN A. NYE.
Copyright, 1908, by Edwin A. Nye.

THE OLD HORSE.

He is no longer a beauty, is old Bill. He is knockkneed, as you can see, where he stands there obedient to your will. But fifteen years ago those legs were as neat and trim as those of any thoroughbred. They have been sagged in your service. With a pride in his going qualities you drove him pell-mell over hard roads and pavements. And you let him stand by the hour at a hitching rack while you dabbled. Stamping in summer to keep off the flies and in winter to keep his blood in circulation, polished over pavements, what wonder he is bowlegged now.

His old head droops.

You remember when there was a lordly arch in that neck, "clothed with thunder." But you used the over-check, causing a painful tension of the flexor muscles of the neck, hindering full respiration and circulation of the blood and causing quick fatigue. Now he can hold his head up only for a short time.

Note the bunches of gray hair on Bill's back.

Those are saddle galls made by your hard riding and his willingness to go your gait. You forgot to put a blanket under the saddle when you hurried to ride for the doctor or to catch up with other fellows up road.

He is sweened also.

You did that. The collar of one set of harness failed to fit Bill's shoulders, and the harness of another set were not adjusted as well as they ought to have been. The seasons were dry and dusty, and his shoulders were often sore, though Bill never complained!

And his eyes are bad.

His normal angle of vision, as of all horses, is earthward, but you reined him up, causing eye strain. And you drove first with and then without blinders. Dust and lack of sunshine helped. And when Bill got a cinder or dust in his eye he never spoke about it and you didn't notice. You see, the animal simply couldn't wipe his eyes.

Blemishes?

Plenty of them. Note the bumps and scars on old Bill's legs. There was a time when he interfered and you did not have him properly shod. Turned into a field in winter that was fenced with wire, he could scarcely exercise himself without injury. You held his head so abnormally high with your checkrein that he often stumbled when moving.

Some good in him yet?

Of course. You have not quite succeeded in killing the faithful old fellow, and sometimes, when his digestion has been good and there is a level stretch of road, something of the old spirit gets into him. But it is pathetic to see how soon he is played out.

There he stands—old Bill.

As he is, so you have made him. You have abused him, and he still loves you and whinnies at your approach. He will live for you and work for you till he dies.

Take good care of old Bill.

It may go hard with you some day somewhere if you fail to do so.
